

Next Steps

Rebecca Place, Settlement Coordinator
3M PFAS Settlement Work Group Meeting
November 5, 2025

Next Steps

- Continue reviewing grant forms and implementing community projects
- Evaluate Priority 1 funds as community projects are implemented
- Continue resampling private wells and communicating with residents about the need for private well testing
- Continue installing whole-home treatment systems in homes that have well advisories

Backlog for whole-home treatment system installation – currently over one year

- Working with MDH to issue additional advisories due to changes in drinking water guidance values
- Tripled private well sampling last year resulting in additional well advisories
- ★ • **RFP for additional contractors to install POETS coming soon**
- Residents have access to bottled water while waiting for whole-home treatment system

- Use Community Survey results:
 - Confirm timeline of existing grants
 - Estimate timing and costs for all future grants
 - Estimate timing for the draw down of settlement funds

Transition Planning

- Work with 3M Company
 - Continue to meet with 3M Company representatives in mediation

Spring Meeting 2026

- Spring 2026 work group mtg | Save the date May 20, 2026
 - Track progress on project implementation
 - Discuss status of reallocations
 - Compare actual costs to plan estimates
 - Continue discussions on future reallocation with work group members
 - Update on mediation between Co-Trustees and 3M Company

Priority 2 update

Timeline:

RFP closed in October

Spring 2026: Applicants notified,
contracts initiated

2026: Projects begin

Thank you!
