

Conceptual Drinking Water Supply Plan: Draft Chapters Update

Terill Hollweg, Abt Associates
3M PFC Settlement Work Group Meetings
November 19-20, 2019

- Present an update on the development of draft chapters for the Conceptual Drinking Water Supply Plan
- Discuss any initial work group comments, questions, or feedback
- Discuss next steps for work group feedback

Plan Outline

Chapters/Content

1. Introduction
 2. Background
 3. Approach
 4. Model Development and Results
 5. Water Supply Improvement Option Identification and Evaluation
 6. Conceptual Project Identification
 7. Scenario Development and Evaluation
 8. Summary and Conclusions
- Reviewed and revised*
- Circulated for review (*outline only for Chapter 4)*

Are there any initial comments, questions, or feedback on these chapters?

Requested Review by Work Groups: Chapters 4-6

- *Thank you for your review of these additional chapters!*
- Please focus your review on the overall content and structure (editing to come later)
 - Are key pieces of information missing?
 - Is there any information that is incorrect?
 - Is there anything that is confusing and/or needs more clarification?
- Please submit comments to Walker Smith by **COB Monday, December 2nd**
 - Comments are requested to be provided in a spreadsheet
- You will get a chance to review these chapters again during review of the entire Plan, which is scheduled for early 2020
