

# Conceptual Drinking Water Supply Plan: Draft Chapters Update

Mark Lorie and Terill Hollweg, Abt Associates

3M Settlement Subgroup 1 Meeting

November 20, 2019

- Present an update on the development of draft chapters for the Conceptual Drinking Water Supply Plan
- Discuss any initial subgroup comments, questions, or feedback
- Discuss next steps for subgroup feedback

# Plan Outline

## Chapters/Content

1. Introduction
  2. Background
  3. Approach
  4. Model Development and Results
  5. Water Supply Improvement Option Identification and Evaluation
  6. Conceptual Project Identification
  7. Scenario Development and Evaluation
  8. Summary and Conclusions
- Reviewed and revised*
- Circulated for review (\*outline only for Chapter 4)*

***Are there any initial comments, questions, or feedback on these chapters?***

# Requested Review by Subgroup: Chapters 4-6

- *Thank you for your review of these additional chapters!*
- Please focus your review on the overall content and structure (editing to come later)
  - Are key pieces of information missing?
  - Is there any information that is incorrect?
  - Is there anything that is confusing and/or needs more clarification?
- Please submit comments to Walker Smith by **COB Monday, December 2<sup>nd</sup>**
  - Comments are requested to be provided in a spreadsheet
- You will get a chance to review these chapters again during review of the entire Plan, which is scheduled for early 2020
